MEDICATED - RUMENSIN

20 g/ton. For the prevention of coccidiosis in young goats caused by *Eimeria christenseni* and *Eimeria ninakohlyamkimo*.

FEATURES & BENEFITS

- CS Purple Pursuit is our newest addition to the Champion's Select lineup. This texturized feed is high in fiber to manage forage consumption. Designed for market goats weighing 50 pounds and over, Purple Pursuit will make your goats muscle expression explode!
- **Sweet smell and taste** to increase feed intake.
- **Fixed formulations:** Our formulas use only carefully-selected premium ingredients that provide the best nutritional value.
- **Expertly Formulated:** A team of experienced nutritionists create balanced formulas to meet all the nutritional needs of your show beef.
- **Health & Productivity:** CS Purple Pursuit is designed to balance protein, mineral, and vitamin levels to ensure optimal nutrition and performance.

FEEDING DIRECTIONS

Feed as a complete feed to goats maintained in confinement.

WARNING: This feeds contains supplemental copper. Do not feed to sheep.

CAUTION: Do not allow horses or other equines access to feed containing monensin. Ingestion of monensin by horses has been fatal. Monensin medicated cattle and goat feeds are safe for use in cattle and goats only. Consumption by unapproved species may result in toxic reactions. Do not exceed the levels of monensin recommended in the feeding directions, as reduced average daily gains may result. If feed refusals containing monensin are fed to other groups of cattle, the concentration of monensin in the refusals and amount of refusals fed should be taken into consideration to prevent monensin overdosing.
