FEATURES & BENEFITS

- CS Cook 16% Lamb Pellets are designed for the growth and development of your show lambs! This pelleted formula will keep your lambs growing as well as create a massive side profile look to them.
- **High vitamin levels** to increase energy.
- **Fixed formulations:** Our formulas use only carefully-selected premium ingredients that provide the best nutritional value.
- **Expertly Formulated:** A team of experienced nutritionists create balanced formulas to meet all the nutritional needs of your show beef.
- **Health & Productivity:** CS Cook 16% Lamb Pellets DX is designed to balance protein, mineral, and vitamin levels to ensure optimal nutrition and performance.

FEEDING DIRECTIONS

Feed CS Cook 16% Lamb Pellets DX at the rate of 0.84 lb. per 100 lb. of bodyweight to provide 22.7 mg decoquinatate per 100 lb. bodyweight. Provide a fresh, clean supply of water at all times.

WARNING: Do not feed to sheep producing milk for food.

CAUTION: Do not use in feeds containing bentonite.

LIMITATIONS: Feed at least 28 days during periods of exposure to coccidiosis or when experience indicates that it is likely to be a hazard. Feed Type C feed or milk replacer at a rate to provide 22.7 mg decoquinatate per 100 lb (0.5 mg/kg) bodyweight. Type C feed may be prepared from dry or liquid type B feed.
